The foregoing statement of Assets and Liabilities of the "Procxix" is presented to the careful persual and sentility of our patrons and the public generally feeling confident it cannot fail to impress upon the minds of all, the entire reliability, solvency, and healthy sendition the Company is in.

The "Procxix" was incorporated by the Legislature of Connecticut, under a "perpetual charter," with a Cash Capital of Two Hundred Thousand Dollars. Since its organization the Company have been doing a large, and, on the whole, a prosperous business, throughout the several States of the Union and the manner in which the affairs of the Company have been managed, has inspired unusual confidence in the minds of the public towards the "Procxix," so that our Policies are readily sought after. Honorable dealings, liberal and satisfactory adjustments, and prompt each payments of all fair losses, are principles in the transaction of our affairs; and we intend so to administer our business in the future, as not only to gain, but retain, the good will, esteem, and patronsey of the public.

Raves or Presutures are as low as undoubted security and prompt indemnity to patrons will warrant. We cannot, nor is if our intention, to compete with "Will Catt" companies, whose whole object and desire is to get manny—without for a moment imaging that every policy a Company lesses is an obligation, to which they may at company lesses is an obligation to which they may at company is some to the core." For Coughs, Colds, Asthma. Coup, Branchitis, In-fluenza, Bleeding, of the Lungs, Difficult Breathing, Liver Affections, Pain or weak-ness of Breast or Side, First Stages

ness of Breast or Side, First Slages of Consumption, etc.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver which is produced by our every varying climate.

Wild Cherry has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even consumption could be cured by that alone. In other hands, again, it was nearly valueless, owing no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experience and lung experiment.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILL CHERRY. By a nice chemical process, every thing
